Portrait Services

In studio or off-site portraits include but are not limited to:

- Pets
- Families, children, and infants
- Maternity
- Engagement Pictures and Couples
- Business Headshots
- Seniors
- Models
- Sports such as trail running, cycling
- Whatever else your imagination can conjure

An upfront sitting fee is required. Prints and negatives are additional and purchased online from the comfort of your own home.

Basic Sitting Fee

In Studio \$65.00

On Location \$150.00

Most portraits will fall into the basic sitting category. The basic in studio sitting involves approximately 30 min of shooting time with multiple poses, 1 backdrop, and clothes changes (part of shooting time) and props. Practice up on the Magnum and be ready to reveal your best Blue Steel.

The basic on location sitting involves approximately 1-2 hours of time with the photographer (including set-up) at one general location. No limitations on poses or changes of clothes. Remember, this can be fashion in the park, sweaty on the trail, or dirty on the field. Your vision, your ideas, your shoot.

Advanced Sitting Fee

In Studio \$130.00

On Location \$300.00

The advanced sitting is geared toward clients who want to experience a mini Vogue-like fashion shoot and fully express their individuality. The in studio advanced sitting involves approximately 90 minutes of shooting time, multiple poses, backdrops, lighting techniques, and changes of clothes.

The on location advanced sitting involves approximately 3-4 hours of time with the photographer (that includes set-up and commute time). No limitations on locations, poses, or changes of clothes.

Great for senior portraits and aspiring models!

Combo: In Studio & On Location

Basic \$200.00

Advanced \$400.00

This is for the aspiring model in us all. Strut your stuff in the studio **AND** on location. Let the beautiful you shine in your favorite locations, clothes and with what's closest to your heart (sure pet Pugsly or the broken skis from hucking a 50 footer are cool). Moody to angelic lighting - this is the stuff that makes Austin Power's say, "Yeah baby, yeah."

Business Headshots

In Studio \$75.00

On Location \$125.00

This is the quick and dirty portrait for business cards and other business use. The sitting fee includes 1 touched up digital negative.

Adventure Shooting

Please ask for a quote!

For the adventurer who wants to document their pursuits and immortalize their triumphs. Whether it's rock climbing, skiing, mountaineering, trail running – I'll pack it up and accompany you for a high impact, joint pounding, adrenaline filled day capturing what you love to do best.

This involves an extremely physical day for you (and me) of shooting, from sun up until the vampires chase us home.

You will receive all the digital negatives for personal use only. This means you can make prints, post them on blogs and iPods, share them with friends and family. What you can't do is sell them to your favorite magazine or ship them off to your gear of choice for an add campaign. You want the images for commercial use? That's cool, but call me for the details . . . there's a little hitch called licensing fees.

However, do you want to be in a mag or on your favorite gear catalogue? If yes, sign a model release and I'll market them to commercial, stock and editorial outlets and you get a discount. In the words of Captain Jack, "Savvy?"
